# Data Warehousing: Small or BIG, We Make it Simple.

Fact Sheet

Services

Organizations today face numerous data challenges, such as the need to make faster and more data-driven decisions, the need to increase the productivity and flexibility of development staff, and pressure to reduce overall information technology (IT) budgets while also scaling the infrastructure to meet ever-increasing demands.

Extended Results has both the experience and the expertise to help enterprises address these challenges. Our next-generation data management and analysis services deliver increased security, scalability, and availability to enterprise data and analytical applications, while making them easier to build, deploy, and manage by your IT organization. We use Microsoft's SQL Server Fast Track Data Warehouse, a new set of reference architectures for data warehousing that will help eliminate many of the barriers companies traditionally face while creating data warehouses.

Our Solutions

- Consolidation: Reduces hardware and maintenance costs by providing a flexible server consolidation solution with enterprise-class manageability and performance.
- Data Warehousing: Comprehensive and scalable data warehouse platform that enables organizations to integrate data into the data warehouse faster, scale and manage growing volumes of data and users, while delivering insights to all users
- Business Intelligence: Scalable business intelligence platforms optimized for data integration, reporting, and analysis, enabling organizations to deliver intelligence where users want it.
- Application Development: comprehensive data programmability platform that enables you to access and manipulate business-critical data from a variety of diverse devices, platforms, and data.

Our Experience

We have worked with companies of all sizes and with varios amounts of data:

- Microsoft: Xbox Live: OLTP/OLAP- Petabyte
- Microsoft: Zune: OLTP/OLAP- Terabyte
- Microsoft: Search: OLTP/OLAP- Petabyte
- Healthcare: OLTP/OLAP- Gigabyte
- Many other companies of smaller sizes
